Our Home Bakery

What started as a passion project in our home kitchen quickly grew into something much bigger. As orders increased and the business flourished, it became clear that our little kitchen could no longer keep up.

So, we took a leap and transformed half of our garage into a gorgeous pink cake studio, a creative space designed specifically for baking, decorating, and bringing bespoke cake ideas to life.

Today, our home bakery blends the comfort and care of homemade bakes with the professionalism of a dedicated studio. Every cake is crafted with attention to detail, high-quality ingredients, and a genuine love for what we do. Each order is made with care, creativity, and a personal touch that reflects our journey from kitchen table to cake studio.

Meet Laura

The founder and the baker!
Named the business after
Dolly Parton! My favourite
product is the cookies every
time!

My favourite part of the
business is watching people
try my bakes for the first
time- that "oh my god"
moment never gets old. I
also love the markets and
meeting all the dogs! I make
so many furry friends!
Dolly's is my happy place
and I hope that my bakes
become yours too!

Meet Sam

I'm the calm, practical brain
balancing out all of the pink,
sprinkles and creative chaos!
I'm the numbers guy, and the
taste-tester in chief!

My favourite product is school
sponge, or the apple crumble
cookies! I love the markets and
talking to people all day, and
the late night testing is always
a plus!
