Markets and Events

## About us

Based in the heart of Boroughbridge, Dolly's Vegan Bakery was born from a home kitchen, and grown through markets, word-of-mouth and community support, we create bakes that stop people in their tracks.

Every treat is crafted by hand, using high-quality plant-based ingredients, playful flavour combinations and or signature pink Dolly aesthetic. We are more than a bakery, we are an experience.

## What makes us different?

### A brand people remember

Our stall is designed to feel like stepping into a mini world of joy: pink, whimsical and instantly recognisable.

### Fully vegan, fully delicious

We don't compromise on flavour. Whether someone is vegan, dairy-free, or just loves a good sweet treat, our bakes hit the spot.

### Community-Driven

We love connecting with customers, through personalised orders, friendly service, and a positive, welcoming atmosphere at every event.

## A little bit of our story

Dolly's Vegan Bakery began as a small home project that quickly grew into a thriving business thanks to a loyal community. While juggling a full-time job, Laura baked late nights, early mornings, and weekends, pouring passion into every batch.

Now, Dolly's is blossoming into a full-time dream, a husband and wife independent bakery determined to bring more joy, colour and kindness into Yorkshire and beyond!

## Meet Laura

*The founder and the baker!  
Named the business after  
Dolly Parton! My favourite  
product is the cookies every  
time!*

*My favourite part of the  
business is watching people  
try my bakes for the first time-  
that "oh my god" moment  
never gets old. I also love the  
markets and meeting all the  
dogs! I make so many furry  
friends! Dolly's is my happy  
place and I hope that my  
bakes become yours too!*

## Meet Sam

*I'm the calm, practical brain  
balancing out all of the pink,  
sprinkles and creative chaos! I'm  
the numbers guy, and the taste-  
tester in chief!*

*My favourite product is school  
sponge, or the apple crumble  
cookies! I love the markets and  
talking to people all day, and  
the late night testing is always a  
plus!*
